the
RAZEN

up to 10kW

The FB Razen Cook Stove is a sleek
piece of contemporary design that
will fit within any kitchen environment.

Options

In addition to the wide range of colours, further options for the FB1, FB2 and FB3 stoves include:

Logbox

available for single and double sided FB1, FB2, FB3 stoves.

The log box raises the height of the stove by 300mm and creates a convenient and safe place to store and dry fuel before it is loaded into the fire. The log box simply bolts to the base of the stove.

Multi-fuel kits

available for single and double sided FB1, FB2, FB3 stoves.

The multi-fuel kit includes a grate to raise the fuel enabling combustion air to come up underneath the fire bed. This allows the stove to burn coal and solid briquettes. The grate is made up of durable solid 1" thick grate bars. The position of these grate bars can be rotated over time to ensure even wear and longevity. The generous ashpan slides discreetly between the legs of the stove and is neatly hidden from view when the stove door is locked.

Boiler

only available for FB2.

The FB2 is available with a 27000Btu (8kw boiler to be used for central heating and/or domestic hot water.)

Double Sided Stoves

The FB1, FB2 and FB3 are also available as a double sided stoves.

The logbox and multi-fuel kit are also available for the double sided stoves. Note, all double sided stoves are now available with the option of opening doors to each side.

Brushed Stainless Steel Legs

The FB1, FB2 and FB3 are all available with brushed stainless steel as an option.

Firebelly recommends your stove is installed by a Hetas registered installer.

This details many regulations that you must adhere to when installing a stove, flue system or chimney as well as various recommendations and good practices.

The Firebelly Stoves installation teams are registered under the HETAS competent person's scheme for carrying out all necessary work for the correct installation of your flue and appliance in accordance with document J.

FB2 Double sided with logbox

Colours

Actual colours may vary due to lighting & surface being painted
